2011-2012 School Year

Dear Prospective Students and Families,

Welcome to Tuller School! Thank you for taking interest in our program and we look forward to seeing you again in the near future. For more than eighty years our school has provided families with a consistently caring and challenging educational experience. Over 50 of those years have been served right here in Tucson. Please take a moment to read the enclosed materials. It will give you a snapshot about our school and we are always available to answer any questions you may have.

Founder Mother Abbie Loveland Tuller, PhD had a vision of providing students with a challenging school environment that would build their interests, skills, and knowledge. We continue that vision today by providing an integrated curriculum that presents problems for the students to solve, building their confidence and learning skills at the same time. In addition to becoming strong problem solvers, students are expected to be responsible for their own actions, decisions, and character. Tuller School fills an important role by making sure graduates are well rounded, academically competitive, and socially engaged to become successful citizens.

We want to challenge you to **engage**, **evaluate**, and **enroll** today! Engage us with your questions, evaluate what we have to offer, and then we hope to welcome you into our family as you choose to enroll your child for the 2011-2012 academic year! If at any time you have questions about our admissions process, curriculum or any other concerns, please give us a call at (520) 747-1142.

Sincerely,

Nannette Akins
Head of School
